

National Training for 21st CCLC Afterschool Grantees

You must select one national conference to attend for the 2004-2005 grant year. Please note that you must get prior DESE approval before any expenses will be reimbursed for such travel and the conference must pertain to 21st CCLC and/or Afterschool Programming.

The following are some of the conferences already scheduled that you may select from, however, it is possible that you may come across other conferences that may be allowable or that others may become available throughout the year. If so, you may contact DESE to inquire about approved conferences to meet your national training requirement for the 2004-2005 grant year.
